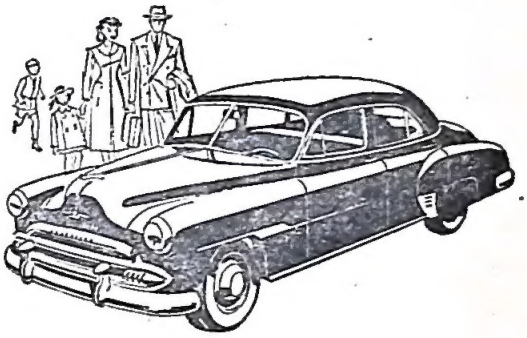
Increasing Thousands Go By Train—Instead Of Driving—Yet Have A New Car To Drive When They Arrive



They use the Hertz Rail-Auto Travel Plan!

Now...Hertz honors Rail Credit Cards...Hertz issues charge cards!

HERTZ, AND ONLY HERTZ, with stations in more than 500 cities throughout the United States, Canada, Great Britain, Mexico and Hawaii, gives travelers this service:

1. Ticket sellers almost everywhere, just like travel agents, help any traveler to reserve a car when he buys his rail ticket.

2. Hertz honors Rail Credit Cards at every Hertz station. They serve as identification — eliminate deposit requirements — and provide credit, if desired. To well-rated business firms and individuals who qualify, Hertz Driv-Ur-Self System issues Hertz International Charge Cards, which extend these same courtesies and privileges.

3. The traveler receives a new Chevrolet or other fine car to drive as his own for an hour, day, week or as long as he wants, wherever he wants, with gas, oil and proper insurance furnished. The cost is low, and five or six can ride for the same rate as one.

4. He is allowed up to 50 cents for reservation wire, and up to 50 cents taxi fare from railroad station or hotel to the Hertz station where he claims the car.

NOTE: Travelers by air enjoy similar advantages of the Hertz Plane-Auto Travel Plan. Hertz maintains stations at the airport in 84 key cities and in all other Hertz cities, meets planes with a car, when reserved in advance. Holders of Air Travel Cards also enjoy the same privileges and courtesies extended to holders of Rail Credit Cards and Hertz International Charge Cards.

TICKET SELLERS! HERE'S AN IMPORTANT MESSAGE FOR YOU!

Do you know that never a day passes without Hertz taking some important step to make the Rail-Auto Travel Plan *increasingly* profitable for you?

Hertz advertises consistently in The Saturday Evening Post, Life, Collier's, Holiday, National Geographic, U. S. News, Time, Newsweek and other publications—telling millions that they can reserve cars from Hertz.

Hertz, and only Hertz, can give your customers such widely available service through its vast network of stations—service based on 27 years experience—so every customer who comes to your counter is a prospect.

Are you asking every customer, "May I reserve a car for you?" If you're not you are missing some handsome earnings. If you haven't a supply of the convenient Hertz reservation forms and literature, don't fail to send for some today. Do it now, while this is before you. Simply write A. J. Shaughnessy, Hertz Driv-Ur-Self System, Inc., Dept. E12, 218 South Wabash Avenue, Chicago 4, Illinois. There's no cost, no obligation.

PUBLISHERS' NOTICE

Address all Mail to 424 West Thirty-Third Street, New York 1, N.Y.

Copy for changes intended for insertion in THE OFFICIAL GUIDE should be delivered at this office on or before the EIGHTEENTH of the month preceding the date of issue.

When such copy is received later than the EIGHTEENTH, even when available, it cannot be inserted without seriously delaying the issue of THE OFFICIAL GUIDE. The prompt publication and delivery of THE OFFICIAL GUIDE is of great importance to many interests all over the country.

By forwarding copy as above suggested much unnecessary delay can be avoided, and we earnestly ask the co-operation of the officials of transportation lines in accomplishing this result.

It is also very desirable that time-tables should be sent us on or before the EIGHTEENTH. When this is not practicable, notice should be sent us BY TELEGRAM on that date of intended changes later in the month. The observance of this request will greatly facilitate the compilation and correction of both local and condensed time-tables.

NOTICE.

Wherever the following signs are used on the time-table pages their meaning is as indicated below:

"Means that the service is operated daily, Sunday included.
† That the service is operated daily, except Sunday.
‡ Daily, except Saturday.
¶ Daily, except Monday.
§ Sunday only.
k Saturday only.
-- Trains do not stop.
| That the train stops for meals at the station opposite the time to which this mark is prefixed.

Where other signs are used their meaning is explained in footnotes on the same page.

The time is shown in two series of figures. From 12 01 a.m. to 12 00 noon light-face type is used. From 12 01 p.m. to 12 00 night dark-face type is used. The suffixes a.m. and p.m. are not used in connection with time shown as 12 o'clock. For 12 00 midday the term "noon" is applied; for 12 00 midnight the term "night" is used.

In all cases, unless otherwise stated, the time given is leaving time.

The standard time on which services are operated is shown in all schedules published in this issue.

The schedules and time-tables of transportation lines as published in this issue are in accordance with the latest information available at the time of going to press. No responsibility is assumed for errors and subsequent changes in schedules, time-tables and train consists set forth herein, nor for inconvenience or damage resulting from delays or failure to make connections.

THE FOLLOWING OFFICERS OF THE MINNEAPOLIS PASSENGER Traffic Club have been elected for the year 1952: president, W. A. Kelch, general agent, passenger department, Chicago & Eastern Illinois Railroad; vice-president, E. M. Petschl, assistant general passenger agent, Chicago & North Western Railway; secretary, G. R. Conaway, passenger representative, Canadian National—Grand Trunk Railways; treasurer, S. A. Swanson, assistant general passenger agent, Minneapolis & St. Louis Railway.

EDITORIAL COMMENTS.

THE ANNUAL MEETING OF THE ASSOCIATION OF RAILROAD Advertising Managers was held at the Sheraton Hotel, St. Louis, Mo., January 25-26, 1952. Many topics of current interest in the railroad passenger and freight advertising field were put before the meeting and the large number of members present actively participated in the discussions that followed. Awards in the First Annual Advertising Competition sponsored by the Association were presented to the American Car and Foundry Company, American Railway Car Institute, Electro-Motive Corporation and General American Transportation Corporation, for their outstanding contribution, through advertising, to the American railroad industry during 1951.

The following officers were elected for the ensuing year: president, F. Q. Tredway, Southern Pacific, San Francisco; 1st vice-president, C. C. Dilley, The Milwaukee Road, Chicago; vice-presidents, L. Brown, Wabash, St. Louis, and R. P. Schaffer, Chicago & North Western, Chicago; treasurer, C. T. Sills, Denver & Rio Grande Western, Denver; secretary, Ivan Coppe, Great Northern, St. Paul; assistant secretary, C. D. Perrin, Chicago.

The time and place of the next meeting will be decided by the executive committee after due consideration has been given the invitations received.

THE NEW YORK, NEW HAVEN AND HARTFORD RAILROAD HAS added a non-stop Advance Merchants Limited between New York and Boston. The new Merchants leaves either terminal five minutes before the regular Merchants and carries only passengers between New York and Boston, there being no scheduled stops between Grand Central Terminal and Back Bay, Boston. The Advance Merchants are operated Mondays through Fridays. There is no extra fare. The regular Merchants Limited continues in operation daily with the usual stops at New Haven, New London and Providence.

THE 70TH ANNUAL MEETING OF THE AMERICAN ASSOCIATION of Traveling Passenger Agents will be held in Biloxi, Miss., October 6 and 7, 1952. It has been arranged for special Pullman cars to leave Cincinnati 9 00 a.m. Saturday, October 4th, via the Louisville & Nashville R.R., stopping at Mobile, Ala., en route. After the meeting an educational tour of Gulf Coast points, New Orleans, La., Jackson, Miss., and Memphis, Tenn., will be made, returning via Illinois Central R.R. to Chicago. It is expected that a large number of members will attend the meeting and that many passenger traffic executives will be present.

REDUCED FURLOUGH FARES ON THE NATION'S RAILROADS FOR military personnel traveling in uniform at their own expense have been extended to June 30, 1952, it was announced recently by Earl B. Padrick, chairman of the Interterritorial Military Committee, which represents all railroads in the East, South and West. The reduction in furlough fares for members of the armed forces would have expired on January 31, 1952, Mr. Padrick added.

This action will continue the tax-exempt round-trip fares for military personnel on furlough at the rate of 2.025 cents per mile or less, good in coaches only, which means a saving of up to one cent per mile and includes regular stop-over and baggage privileges.

AT THE 30TH ANNUAL MEETING OF THE GENERAL EASTERN Passenger Agents Association of New York held on January 3d, the following officers were elected for 1952: president, George Palma, general eastern passenger agent, Frisco Lines; vice-president, A. E. Spette, assistant general passenger agent, New York, New Haven & Hartford Railroad; treasurer, M. R. Kielgas, general eastern passenger agent, Chicago & North Western System; secretary, W. F. Vitt, general agent passenger department, Missouri Pacific Lines; assistant secretary, T. J. Glancy, general agent passenger department, Rock Island Lines.

THE MISSOURI PACIFIC LINES OPENED ITS NEW CONSOLIDATED freight terminal in St. Louis on December 31st. The new terminal replaced two stations which had been in service for years; it covers an area of more than five acres and the completely enclosed terminal has 12 tracks with a capacity of 180 cars. Four platforms are interconnected by means of bridges which depress and roll beneath the platforms when it is necessary to move cars into or out of the station. The terminal and bridges were designed by Missouri Pacific engineers and the entire structure was built by Missouri Pacific personnel.

THE MONTHLY COMMENT ON TRANSPORTATION STATISTICS, Bureau of Transport Economics and Statistics, Interstate Commerce Commission for January includes tables which show for the year 1950 the amount of carload traffic moving on interstate rates in total and by territories and a further distribution of the interstate traffic by type of rate. The data were tabulated from the 1 per cent. Carload Waybill Sample of traffic terminated by Class I railroads and is distributed according to the type of rate as reported by these carriers. The COMMENT states that:

"About 69 per cent. of the tonnage for all traffic moved at interstate rates and this accounted for about 89 per cent. of the total revenue. The percentage of interstate traffic moving intraterritorially ranged from 79 per cent. of the tonnage and 85 per cent. of the revenue within Western Trunk Line to 36 per cent. of the tonnage and 71 per cent. of the revenue in Mountain Pacific. About 70 per cent. of the tonnage in Official Territory moved on interstate rates accounting for about 85 per cent. of the revenue within that territory.

"Ninety-one per cent. of the total tonnage including interterritorial traffic moved on commodity rates and about 7 per cent. on exceptions ratings, these two categories representing 79 per cent. and 15 per cent., respectively, of the revenue. In contrast only about 1 per cent. of the total tonnage of interstate traffic moved on classification ratings, but this tonnage accounted for approximately 4 per cent. of the interstate revenue. Less than a half per cent. of the tonnage moved on types of rates other than the foregoing three such as all commodity rates and Section 22 quotations, although this traffic accounted for about 2 per cent. of the revenue. Within the territories, the largest percentage of classification rated traffic moved in Official Territory with somewhat over 1 per cent. of the tonnage and about 5 per cent. of the revenue. There was also relatively heavy traffic taking exceptions ratings in this territory, approximating 9 per cent. of the tonnage and 20 per cent of the revenue. The highest percentage of movement on commodity rates was in Mountain Pacific Territory, these rates accounting for 97 per cent. of the tonnage and 93 per cent. of the revenue, with correspondingly small movements on classification, exception and other ratings. A somewhat higher proportion of movement on 'other' rates occurred in this territory than in others."

The above was issued as information and has not been considered or adopted by the Interstate Commerce Commission.

THE TORONTO PASSENGER CLUB HAS ELECTED THE FOLLOWING officers for the year 1952: president, A. M. Mercer, Union Pacific Railroad; 1st vice-president, A. G. Rainey, Canadian Pacific Steamships; 2d vice-president, R. H. Abbott, Canadian Pacific Railway Co.; 3d vice-president, J. J. Menary, Canadian National Railways; treasurer, R. L. Armstrong, Canadian Pacific Railway Co.; secretary, L. G. Michie, Chicago & North Western System.

THE FOLLOWING YEAR-END STATEMENT WAS ISSUED BY William T. Faricy, president of the Association of American Railroads:

The nation's railroads in 1951 made all-time record expenditures for new equipment and far-reaching improvements in their plant, which helped bring about further enlargement of carrying capacity and greater operating efficiency.

The railroads also carried a near-record traffic of 643 billion ton-miles, and took in record gross operating revenues of more than $10 billion. Expenses and taxes were also at record levels, however, and increased faster than revenues. Net railway operating income fell from $973 million in 1950 to $903 million in 1951 and the rate of return earned on net investment decreased from 3.96 per cent. to only 3.54 per cent.

The telling effect that higher wage rates and prices have had on railroad operating costs is evident from comparison of such increases with the far lesser increase in freight rates. Since 1939, for instance, straight-time hourly rates of pay for railroad workers have increased 139 per cent., and prices of railroad materials and supplies have increased 130 per cent. During the same period, the revenue received by railroads for hauling an average ton of freight one mile has risen only 45 per cent.

In 1951, the railroads received an average of 1.339 cents for carrying a ton of freight one mile. They also performed passenger transportation equivalent to moving 34,399 million passengers one mile, at an average charge of 2.601 cents for carrying a passenger one mile.

Despite the meager return on invested capital, the Class I railroads spent in 1951 an all-time record amount of more than $1,400,000,000 to enlarge capacity and to increase operating efficiency. Of this huge outlay of capital spending, approximately $1,061,000,000 was allocated for the purchase of about 84,000 new freight cars and about 3,500 new locomotive units. More than $351,000,000 went for improvements to roadway, structures and other fixed facilities.

As a result of these new facilities installed by railroads under the 1951 improvement program, which represents a continuation and acceleration of the long-range program undertaken after World War II, the railroads during the past year so enlarged their carrying capacity and increased their efficiency that the average freight train carried more tons of freight more miles during each hour of operation than ever before.

Outlook for 1952: The railroads enter 1952 with a heavy backlog of more than 120,000 freight cars and more than 1,700 locomotives on order, representing commitments to spend more than $1 billion. And these capital improvements, along with the many other phases of self-improvement which the railroads have undertaken, will require continued huge expenditures.

On the other hand, the railroads are faced with a serious shortage of the materials and funds required for continued expansion and improvement of facilities.

The Class I railroads, for instance, consider the delivery of 10,000 new freight cars monthly as the minimum required to meet their needs, yet in only one month of 1951 was this number of cars built, and reduced steel allocations in the first quarter of 1952 will doubtless further reduce the number of freight cars installed.

The extent to which the railroad program of improvement and expansion can be financed depends on railroad credit, which is based on earnings or the prospect of earnings. This in turn depends on the relationship between railroad rates and operating costs.

What these relationships will be in 1952 and thereafter cannot now be determined. But whatever they may be, the railroads will continue to do everything in their power to meet national transportation needs right up to the limit of available money and materials.

AT THE ANNUAL MEETING OF THE SOUTHERN CALIFORNIA Passenger Association, the following officers were elected for the year 1952: president, O. V. Howard, Rio Grande Railroad; 1st vice-president, Roy Baumrucker, Pennsylvania Railroad; 2d vice-president, Earl H. Eckhoff, Union Pacific Railroad; secretary-treasurer, Curt Berghofer, Burlington Lines.

TESTIFYING IN WHAT HAS BEEN TERMED THE MOST CRUCIAL and important freight rate case heard in years by the Interstate Commerce Commission, Walter S. Franklin, president of the Pennsylvania Railroad, first witness in the railroad's petition to put into effect the full amount of a 15 per cent. freight rate increase sought in March, 1951, declared that the ability of the Eastern railroads to continue their improvements for defense, and to maintain properly their properties, service, and credit, depends on quick and favorable action by the Commission on the increase requested.

Terming the increase fair and reasonable in the light of the generally lower level of freight rates to-day in relation to the prices of products sold by unregulated industries, Mr. Franklin said that instead of subsisting on "a margin of profit which is far too narrow, railroad earnings obviously should be at the peak when the volume of business of the country is at an all-time high.

"Based on present levels of wage and material costs, the effect of granting the increase would give the Pennsylvania Railroad net income at an annual rate of $48,000,000, compared to $33,000,000 now estimated for 1952 with present rates, and $26,227,000 estimated for 1951," he said. A net income of $48,000,000 would mean a return of less than 4 per cent. on investment, compared to 2.52 per cent. return for 1951.

The slim margin of earnings in the recent past has forced the Pennsylvania to cut back on improvements and property maintenance. In 1951, he said, "we cut 6,000 freight cars, which was unfortunate but necessary as it turned out, and we cut 25,000 tons of rail from the program we had planned had earnings been available."

Emphasizing the necessity for a quick decision, Mr. Franklin pointed out that the money requested in this case represents about "$5,000,000 per month to the Pennsylvania Railroad, or about $167,000 per day."

"So you can see," he said, "what delay means to us in this case." He said that not only were "present earnings insufficient to pay a proper return to the stockholders," but that lacking adequate cash for improvements and with necessary heavy borrowings, on the present level of earnings, it was becoming increasingly difficult to carry on improvement work.

Summing up, Mr. Franklin declared that it was impossible for the railroads, with their low rate of return on investment, to absorb at current freight rate levels the fastly pyramiding advances in wage and material costs, or to meet them through normal advances in efficiency and technological improvements, and that the only solution at the moment is a reasonable increase in freight rates.

THE CHICAGO AND NORTH WESTERN RAILWAY SYSTEM HAS issued a newly revised directory of Winter Sports Playgrounds in Wisconsin, Minnesota and upper Michigan as well as Sun Valley, Colorado and Utah. The directory gives particulars in regards to the winter sports facilities at the various resorts with a list of hotels and lodges, rates and other information of interest to the sportsmen. Copies are available without charge upon request to H. C. Duvall, passenger traffic manager, Chicago and North Western Railway, 400 West Madison Street, Chicago.

MR. WALTER KNOTT OF KNOTT'S BERRY FARM, BUENA PARK, Cal., advises us that he has purchased from the Denver & Rio Grande Western Railroad the famous engine 41 and the train of four narrow gauge cars. Originally built in 1880, engine 41, with its four coaches, made its maiden run on the Silverton-Durango branch line out of Durango, Colo.

The train will be operated on irregular schedule by the Ghost Town & Calico Railway in Knott's Berry Farm and the California countryside. The "Golden Spike" ceremony was celebrated January 12, 1952. Addresses were made by Carlton Sills, manager publicity and advertising, Denver & Rio Grande Western Railroad, whose subject was History of Denver & Rio Grande R.R., also by Wm. M. Jeffers, retired president, Union Pacific Railroad, and by Walter Knott who is president of the Ghost Town & Calico Railway. The round-trip fare for the ride is 42 cents plus 8 cents tax. A strip ticket over 16 inches long is issued to each passenger. The ticket includes quaint notices to passengers and a set of regulations which recall the California pioneering days.

FOUR NEW ELECTRIC FREIGHT LOCOMOTIVES, WITH MANY modern developments to provide more efficient and better service, have been built for the Pennsylvania Railroad by General Electric and Westinghouse, working in collaboration with railroad engineers.

Three locomotives are already in fast freight service in the road's electrified territory and the fourth is under test. They cost nearly $3,000,000 and each consists of two identical streamlined units similar in appearance to Diesels.

Two locomotives, built by Westinghouse, employ the first application to locomotives of the ignitron rectifier, an electronic principle using large mercury arc tubes to convert alternating current, transmitted efficiently over wires, to direct current which can be utilized more readily by motors. The railroad and the electric company co-operated in adapting it successfully to an electric suburban car, after its initial development for industrial usage, and then further refined it for use on locomotives, greatly improving and simplifying the method of power conversion. Rated at 6,000 horsepower continuously, each locomotive is 124 feet long, has 44-inch driving wheels, and weighs about 755,000 pounds.

The other two locomotives, built by General Electric, develop 5,000 horsepower each continuously and up to 10,000 horsepower during acceleration or when ascending grades. Work on their design began in 1937 but was interrupted by World War II. The parts have been built as simple as possible, and adequate space has been provided within the locomotive to facilitate inspection and maintenance. Each is 108½ feet long, has 48-inch driving wheels, weighs 491,000 pounds and will multiple with many existing electric freight units.

The locomotives have traction motors driving all wheels, similar to modern freight Diesels. The full weight of the locomotives can thus be utilized to produce maximum pulling power. They are also equipped with dynmatic braking, in addition to air brakes.

THE ROCK ISLAND LINES HAS DEVISED A NEW APPROACH toward cutting down the steadily increasing losses in the operation of railroad dining car service. J. D. Farrington, president of the System, announced last month the introduction of wide-scale use of frozen foods coupled with new kitchen techniques. The innovations are designed to provide varied menus of superior quality at no increase in price to the patron. Taking the place of the diner's coal range and steam tables will be a warming oven, deep-freeze boxes and serving tables. A vast variety of food which has previously been prepared in the master kitchen of the Rock Island's commissary in Chicago will be placed in the freeze boxes aboard the car and then deep-frozen for future use. As ordered by the patrons, a complete meal will be removed from the deep-freeze containers and placed in the warming oven. In a matter of minutes it will be ready for the patron to start his meal.

THE 1952 GRAY LINE TARIFF ISSUED BY THE GRAY LINE Sight-Seeing Companies, Associated, for the use of ticket agents is just off press. The tariff gives particulars of the many Gray Line tours operated in the United States, Canada, Hawaii, Alaska, Cuba and Mexico. In addition to the description of the tours it gives information in regard to rates for the regular motor coach fares, and in many instances the rates for private cars. Ticket agents may obtain copies of this tariff together with Gray Line prepaid orders, folders of all cities, illuminated signs and displays by addressing Gray Line Sight-Seeing Companies, Associated, La Salle Hotel, 10 N. La Salle St., Chicago 2, Ill.

THE UNITED STATES LINES ANNOUNCES THAT THE S.S. *United States* will enter Transatlantic service in the summer of 1952. Its maiden voyage is scheduled for July 3d. The new steamship will be completely air-conditioned, completely fireproof and built to meet the most exacting safety standard of the United States Navy. It is 990 feet long with a beam of 101 feet, 6 inches. There are 12 decks and the power is provided by steam turbine-quadruple screw. The new ship will have a speed of 30 knots plus, with a gross tonnage of over 50,000, carrying a total of 2,000 passengers and 1,000 crew. The estimated cost is $70,000,000.

PERSONAL.

Mr. J. R. GETTY was appointed general passenger traffic manager of the Seaboard Air Line Railroad at Norfolk, Va., effective January 4th. Mr. Getty entered railroad service in 1936 as ticket clerk in the city ticket office of the Pennsylvania Railroad at Wilmington, Del. In December, 1937, he went with the Seaboard Air Line Railroad as traveling passenger agent at Philadelphia, Pa., and subsequently served as district passenger agent at Philadelphia and at Miami, Fla. In June, 1943, he was appointed general passenger agent at Miami and in June, 1947, was promoted to the office of assistant to passenger traffic manager, Norfolk, Va. Mr. Getty has held the position of passenger traffic manager (sales and service), Norfolk, Va., since December 1, 1948.

OFFICIAL CHANGES, APPOINTMENTS, ETC.

N. B.—The following notices are compiled from official advice as received up to the latest date before going to press. TRANS-ATLANTIC STEAMSHIP LINES

GENERAL INFORMATION

FARES—Only minimum steamship ocean fares are quoted herein. Fares for accommodations other than at the minimum rates shown may be obtained on application to the respective Steamship Lines or their authorized agents.

PASSPORTS—All passengers must have valid passports. United States citizens must apply to the U. S. Passport Officer located in Washington, New York, Boston, Chicago or San Francisco ***or*** to the Clerk of a State or a Federal Court exercising naturalization powers in the districts in which they reside. Aliens must apply to their respective consulates.

VISAS—A "Visa" is a stamp of approval on a traveler's passport by an official of the country to be visited. Requirements vary with the countries concerned. Some do not require a person holding a United States passport to secure a visa, others grant such a visa without charge, while still others affix a visa only upon payment of a stipulated fee. Detailed information should, in each instance, be secured from the respective Steamship Lines or their authorized agents.

RE-ENTRY PERMITS—All resident aliens leaving the United States and intending to return must secure in person a "Permit to Re-enter." Application Form I-131 must be filed, in duplicate, with the appropriate Immigration and Naturalization Service field office or the District Director having jurisdiction over the alien's place of residence, at least 30 days before the proposed date of departure.

SAILING PERMITS—All passengers, other than U. S. citizens, must obtain an Income Tax Clearance Certificate (Sailing Permit) for which application should be made in person, not earlier than one week before sailing, at the nearest office of the Collector of Internal Revenue in the district in which the departing alien resides, or in New York at the Alien Income Tax Division, 292 Madison Avenue, Corner 41st Street, Room 500. The office hours are from 9 a.m. to 5 p.m., Monday through Friday; closed on Saturdays. Passport and steamer ticket must be submitted, together with copies of income tax returns for the last three years, and a statement of current income and withholding tax. All passengers in transit without stop-over privileges will be examined at the pier. It is recommended, however, that all others procure their sailing permits in advance, as examination by the U. S. Revenue Investigator at the pier may involve considerable delay.

UNITED STATES HEAD TAX—$8.00 U. S. Head Tax per person must be collected on westbound passage contracts; return portion of round trip tickets and prepaid tickets excepting as follows: 1—United States citizens, 2—Children under 16 years of age when accompanied by a parent, 3—Passengers proceeding in-transit through the United States en route to another country holding a Section 3 (3) visa, 4—Foreign Government Officials holding Section 3 (1) or Section 3 (7) visa.

SHIPS BETWEEN U. S. PORTS AND EUROPE VIA HALIFAX OR VIA ANOTHER U. S. PORT OR VIA A MEXICAN PORT—United States Transportation Tax of 15% is payable on that portion of the trans Atlantic fare paid in the United States which covers the voyage in either direction, between U. S. ports and Halifax, or between one U. S. port and another U. S. port, or between a U. S. port and a Mexican port.

SMALLPOX VACCINATION—All passengers (including those booked on this side for a round trip voyage), U. S. citizens as well as aliens, arriving in the United States must present to the U. S. Public Health Service a certificate from a competent physician showing that they have been vaccinated against smallpox within three years prior to date of entry. The certificate must state the type of reaction—a certificate of "No reaction" is not acceptable. A blank form for an acceptable certficate may be obtained from the respective Steamship Lines or thru authorized agents. Certain countries in Europe also require such certificate at time of entry.

All passengers arriving at Canadian Ports are required to submit to the Canadian Quarantine Authorities written evidence that they have been vaccinated against smallpox within three years prior to date of arrival. The certificate must state the type of reaction—a certificate of "No reaction" is not acceptable.

CANADIAN REQUIREMENTS—All passengers sailing from or to Canada in ships terminating at Canadian Ports must likewise be in possession of valid passports, duly visaed where necessary. Canadian citizens, resident in Canada apply to Passport Officer, Department of External Affairs, Ottawa, other nationals to their respective High Commissioners or Consulates in Canada. Canadian residents exporting funds are required to be in possession of Travel Permit Form "H" issued by authorized dealers of the Foreign Exchange Control Board of Canada. Baggage of all passengers sailing from Canadian ports is subject to examination by Canada Customs Officers for the purpose of preventing the illegal export of currency, stocks, bonds and other media of exchange. Westbound passengers proceeding to the U. S. A. via Canadian ports must be in possession, prior to sailing, of all necessary documents covering their entry to the United States of America.

MISCELLANEOUS—Detailed information concerning the above requirements, also regarding childrens' and servants' fares, baggage, regulations on exchange of money, exportation of foodstuffs and tobacco, European port taxes, and transportation of pets, automobiles, etc., should be secured from the respective Steamship Lines or their authorized agents.

GENERAL INFORMATION

BAGGAGE—Forty (40) pounds of baggage will be carried free on each domestic ticket and 66 pounds on each international ticket covering travel entirely by air. Baggage over this limit is charged for at the rate per pound of one-half of one per cent. of the published one-way fare, with a minimum charge of twenty-five cents (25c). The liability of the Carrier for loss of or damage to baggage and/or personal property checked in the Company's care is limited to the amount of One Hundred Dollars ($100.00) per ticket unless a higher valuation is declared and paid for prior to the departure of the flight.

CANCELLATIONS—Reservations will not be held on flights from stop-over points or on return flights originating at points other than where ticket is purchased, unless passenger secures revalidation from the airline of departure in the city of each departure at least 6 hrs. prior to scheduled flight time.

National Airlines may cancel any reservation, if the person holding the reservation has not presented himself at the airport office of National Airlines for the purpose of checking in at least ten (10) minutes prior to the scheduled departure time of the flight for which the reservation was made.

CHILDREN—Children between 2 and 12 are allowed half fares (one-half of the standard all year published fare).

STOP-OVERS—Stop-Overs will be permitted at any scheduled stop providing reservation is made accordingly at beginning of flight.

RESERVATIONS—All reservations must be made in advance and will be held only long enough to permit purchase of ticket as soon as practicable after reservation on the originating portion has been confirmed, at which time your specific ticket deadline will be given.

STEWARDESSES—Stewardess service on all National Airlines flights.

TIME TABLES—These time tables show the times at which planes may be expected to depart from and arrive at the several stations shown and to connect with trains or other planes, but their departure, arrival or connection at the time stated is not guaranteed.

TRIP INSURANCE—Trip insurance may be purchased at National Airlines ticket offices.

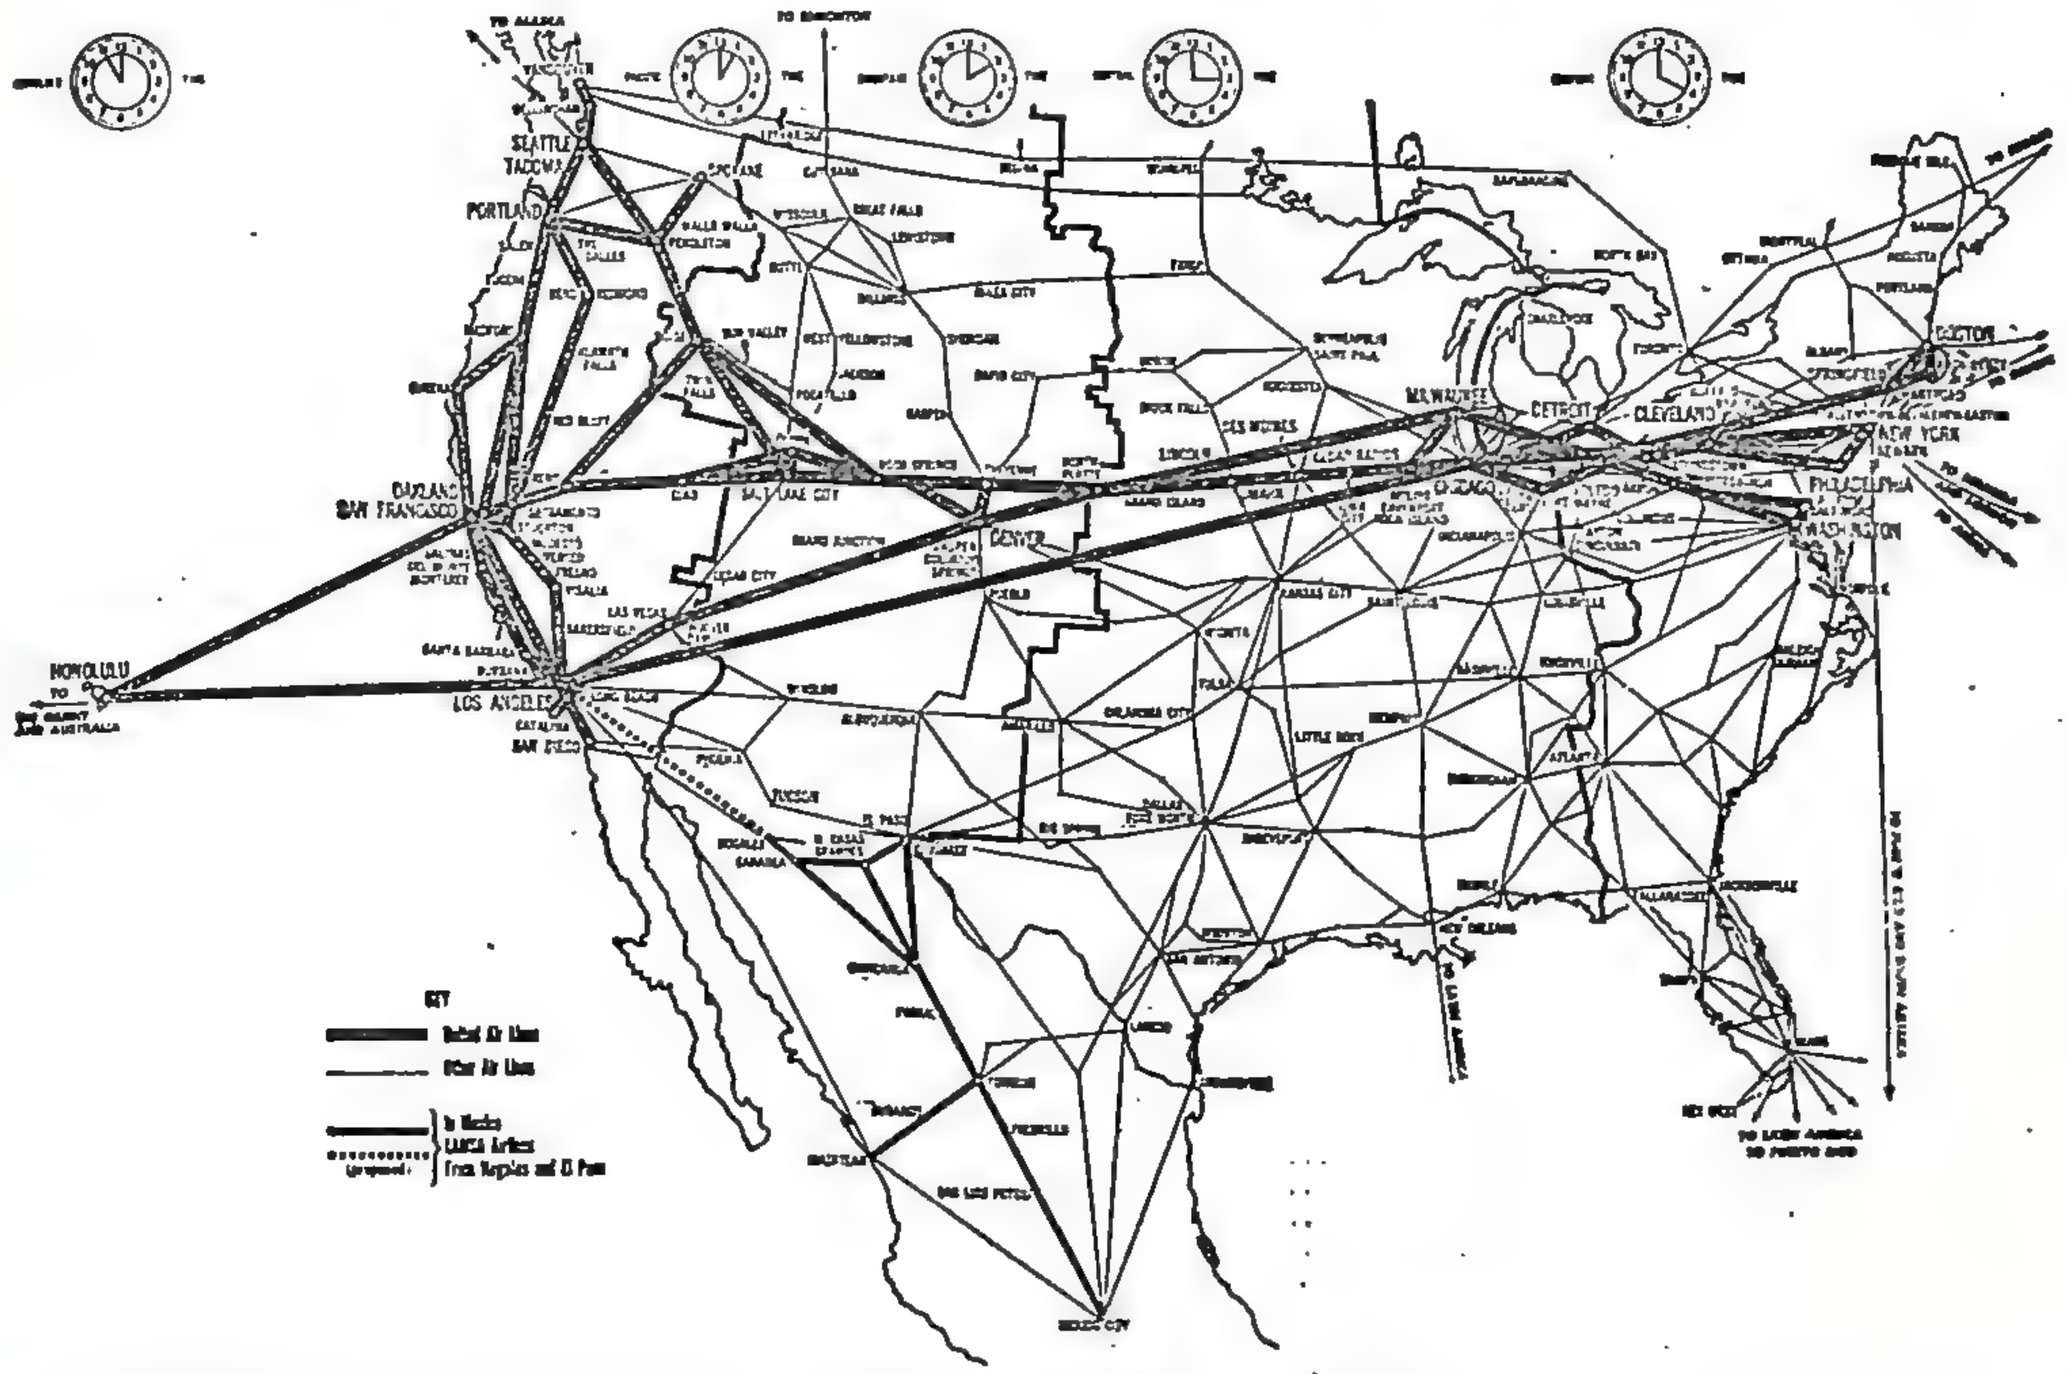
GENERAL OFFICES—5959 S. Cicero Avenue, Chicago 38, Ill.—Telephone Portsmouth 7-3300.
Cable Address—UALAIR

W. A. PATTERSON, President.
D. F. MAGARRELL, Vice-President, Transportation Service. | HAROLD CRARY, Vice-President, Sales.



GENERAL INFORMATION

AIR EXPRESS SERVICE—You can ship Air Express on all United flights except between California and Catalina or Honolulu. No extra cost for door-to-door pick-up and delivery. Contact Air Express Division, Railway Express Agency, for information.

AIR FREIGHT SERVICE—United offers economical Air Freight service on all Mainliners and Cargoliners. Expedited service to and from Honolulu. Contact your local United office for rates and information.

AIR MAIL—AIR PARCEL POST—Carried on all United flights except between California and Catalina. Domestic Air Mail: 6c oz. (incl. Honolulu). Air Post Cards: 4c. Contact Post Office for Air Parcel Post rates.

RESERVATIONS—All reservations must be made in advance. Reservation phone numbers and ticket office locations in certain major cities are shown on page 90. Cable address "UALAIR."

GROUND TRANSPORTATION—United has arranged ground transportation service at reasonable rates in all cities it serves.

BAGGAGE ALLOWANCE—40 pounds of baggage free if your air travel is entirely within the continental United States or Canada. 66 pounds free for travel entrely by air between any continental United States or Canadian city and Hawaii or international points. 88 pounds free for travel entirely by air around the world. 55 pounds free when trip involves travel by ship outside the continental United States or Canada.

Baggage includes not only your suitcases, but also brief cases, packages, etc., even though carried personally on the plane. Nominal extra charge for additional baggage: ½ per cent of the full one-way fare for each pound of excess (minimum total charge of 25c). Although there's no set limit for the amount of excess baggage you may carry, United reserves the right to refuse baggage if it will not withstand ordinary handling, or if it is unsuitable for transportation because of weight, size, or character. If you wish, excess baggage can be shipped ahead by United Air Freight or by Railway Express. United will be glad to assist you in making arrangements.

Experience shows that overpacked luggage or luggage containing liquids is sometimes damaged. Therefore, we suggest you pack your bags carefully. Baggage should also be clearly tagged with your name and address. United's liability for baggage will not exceed $100 (per passenger) unless you declare a higher valuation and pay a slight extra charge.

CANCELLATIONS BY COMPANY—Company reserves the right to cancel bookings before passage or en route any time such action is deemed advisable or necessary. In all events, the passenger's sole recourse shall be the recovery of the unused portion of the air fare.

REFUNDS—When conditions prevent the company from completing flight, a refund draft covering the complete unused portion of the air fare will be issued immediately or forwarding transportation will be provided.

RESPONSIBILITY FOR DEPARTURES, ARRIVALS AND CONNECTIONS—United Air Lines, Inc. will not be responsible for damages resulting from the failure of Mainliners to depart or arrive at time stated in these time-tables nor for errors herein nor for failure to make connections with planes of other lines or of this Company. Schedules are subject to change without notice.

Meal Service.

Meals are served aloft on all standard fare flights at regular meal hours and at no additional cost. Light refreshments are available between meal hours. Consult the United agent who makes arrangements for your trip to determine the particular type of meal service which is available on your flight. Meals are not served on coach flights.

ALL SCHEDULES ARE DAILY UNLESS MARKED OTHERWISE

BUFFALO CREEK RAILROAD

(Erie Railroad Co. and Lehigh Valley Railroad Co., Lessees.)

W. M. SPORLEDER, Superintendent, G.P.O. Box 2046, Buffalo 3, N.Y.

A terminal switching line with 5.73 miles of road operated, connecting with all other Buffalo railroads; with trackage of 34.12 miles serving waterfront and other industries for car load freight only. Provides private open dock facilities for Lake Vessels handling bulk commodities in Lake-Rail transfer.

As switching Agent for the Line Haul carriers, the Buffalo Creek provides a neutral service for all industries, receives from and delivers to all direct connections, enabling prompt departures for all loaded cars available prior to cut-off times.

ONE COUPON

New York Central R.R.
Cleveland, Cin., Chic. & St. L. Ry.
Michigan Central R.R.
Boston & Albany R.R.
Pittsburgh & Lake Erie R.R.

Routing designations on tickets, i.e., C. C. C. & St. L. Ry., M. C. R.R., B. & A. R.R., and W. S. R.R., have been discontinued and only one coupon reading "*N. Y. C. R.R.*" between any two points on these Lines is required.

Only one coupon reading N. Y. C. R.R. is required from points on the N. Y. C. R.R., C. C. C. & St. L. Ry., M. C. R.R., B. & A. R.R., and W. S. R.R., to points on the Pittsburgh and Lake Erie R.R.

Only one coupon reading "P. & L. E. R.R." is required from points on the Pittsburgh and Lake Erie R.R. to points on the N. Y. C. R.R., C. C. C. & St. L. Ry., M. C. R.R., B. & A. R.R., and W. S. R.R.

If there is more than one route and different fares apply, coupons should be endorsed according to fare collected.

The present routing arrangement via P. & L. E. R.R. to Youngstown, Erie R.R. to Cleveland, thence N. Y. C. R.R., or vice versa, should be continued.

Our trains will continue, as at present, to depart from and arrive at *La Salle Street Station* (located at La Salle and Van Buren Streets), and *Central Station* (located at Michigan Avenue and Roosevelt Road), and Chicago transfer coupons should indicate the N. Y. C. R.R. Station in Chicago to or from which passenger is to be transferred, depending on train to be used.

The CHICAGO JUNCTION RAILWAY has direct connection with all trunk lines entering Chicago. It serves the Union Stock Yard & Transit Company to which all connecting railroads have access. It also serves the large packing plants and the Central Manufacturing District, a model industrial community embracing some 550 establishments.

The CHICAGO RIVER & INDIANA RAILROAD COMPANY serves approximately 200 industries available to all trunk lines through reciprocal switching and provides fast intermediate service between all trunk lines.

Excellent transportation facilities for handling both carload and less than carload freight, as well as a centralized location, provide the territory served by these railroads with exceptional industrial advantages. Inquiries addressed to our Industrial Agent will receive prompt attention.

Two UNION FREIGHT STATIONS are conveniently located for handling INBOUND and OUTBOUND less than carload freight.

Direct PACKAGE CAR SERVICE is available daily to important points throughout the United States.

FREE TRAP CAR SERVICE is supplied between industries and UNION FREIGHT STATIONS.

Interchange Service. Direct connections with all trunk lines entering Chicago enables the **Indiana Harbor Belt Railroad** to move carload traffic through the Chicago Gateway with the utmost dispatch. In most cases these connections with trunk lines are at or near their outer freight yards so that traffic routed via **Indiana Harbor Belt Railroad** avoids the downtown terminals. To insure unexcelled service, specify I. H. B. in routing instructions.

Perishable Freight received from Western Lines at Norpaul, Proviso, Bellwood, Broadview, LaGrange, McCook, Argo, Chicago Ridge and Blue Island not later than 3 00 a.m., 4 30 a.m., **1 30** p.m., **3 00** p.m. daily, will be delivered to Eastern and Southern Lines in time for forwarding on fast morning, afternoon and evening trains respectively, departing from Chicago the same day.

Dead Freight is handled with prompt dispatch and the large fleet of trains operated daily assures uninterrupted service.

Re-Icing Facilities. One of the largest and most modern re-icing stations in the world, located at Blue Island, Ill., provides an ample supply of ice for the proper protection of perishable freight. The Blue Island plant has a manufacturing capacity of 1,000 tons of ice daily and a storage capacity of 15,000 tons Lake Michigan water used in manufacture insures its purity. Eighty cars may be re-iced simultaneously on the two tracks serving the icing platform A machine of the latest design is in operation for **Body Re-Top Icing** and shipments requiring this kind of protection are given special attention.

Live Poultry Facilities. Convenient facilities for feeding and watering live poultry in transit are maintained at Blue Island, Ill.

Calumet Park Stock Yards. Through shipments of live stock may be fed, watered and rested in transit at well-kept, sanitary yards covering 60 acres at Calumet City, Ill. Pens are available for the accommodation of over 200 cars of stock The yards consist of 207 pens, 143 of which are fully covered, 36 partially covered and 28 are open. All alleys and practically all pens are brick paved. The assigned horse barns have cinder floors. Special enclosed disinfected pens are assigned for handling serum pigs, tested dairy cattle and enclosed disinfected barns are provided for horses and mules. Chicago city water is used throughout the yards for watering all live stock. Fifty chutes permit prompt handling. Modern corn blowing equipment, which measures and evenly distributes corn for feeding hogs in cars, is in operation. Two 8-inch drenchers are available for spraying hogs in warm weather. Only high quality feeds are supplied. All facilities comply with regulations of the Department of Agriculture, Bureau of Animal Industry.

Docking Facilities. At East Chicago, Ind., one of the largest private docks in the Chicago area, equipped with modern facilities, is available for handling many classes of water-borne freight.

Industrial Development. The **Indiana Harbor Belt Railroad** serves more than 400 industries in the Chicago Switching District, which includes the Calumet District, one of the greatest industrial developments in the Middle West. Many desirable factory, warehouse, yard and dock sites are available in the territory served, which are far enough removed to avoid the congestion of the city, yet sufficiently close to enjoy Chicago rates. Inquiries addressed to our Industrial Agent will receive prompt attention.

Direct Package Car Service is available daily to important points throughout the United States.

Free Trap Car Service is supplied between industries and freight stations.

To Insure Unexcelled Service Specify I. H. B. in Your Routing Instructions
